

As we head into 2022, Republicans are poised to make history. Winning the House shouldn't be enough. We need to make sure we pick the RIGHT candidates to represent us and fight for our conservative principles.

That brings me to Darius Mayfield from New Jersey. He's a true fighter. He's a stand-out candidate bringing a voice to conservatives in a state that needs fighters to step forward.

Darius is a black conservative who grew up in an underserved neighborhood in a single-parent household. He has an amazing story that resonates with the people from his district.

He made a name for himself in the auto industry, having been the youngest sales manager and then the first black general manager of a top 25 national auto group. He's a self-made man, business owner and philanthropist.

We need leaders and principled conservatives to stand with me in Washington. That's who Darius is. He has defined his campaign with one simple phrase — "Not Black. Not White. American."

That's what we need in this country right now.

The Democrats are trying to cripple us by dividing everyone based on identity, race, and creed. Darius stands above that.

Darius is what New Jersey's 12th district needs. He's what America needs.

That's why I'm proud to endorse Darius Mayfield for Congress in New Jersey's 12th District. I encourage you to visit his website dariusmayfieldforamerica.com and send a donation.

In Liberty,

Burgess Owens

Rep. Burgess Owens
